Dear Parent/Carer,

Dissecting a pig's heart

In science, your child is learning about the body of humans and animals. As part of this topic your child has the amazing opportunity to take part in a practical session of dissecting a pig's heart. The session will be hands on and very interesting for the children.

If you do not wish for your child to take part in the session then please let the school know as soon as possible.

If you have any questions regarding the session then do not hesitate to contact me.

Yours sincerely,

Laura Hartmann
Assistant Principal
